EXHIBIT 42

UNREDACTED VERSION OF DOCUMENT SOUGHT TO BE LODGED UNDER SEAL

Remind me why you forwarded this?

I think either Ilya or Doug's approach is reasonable. I think either will get the data you need. If I were you, I would just let whoever is running the meeting pick the approach.

I prefer to just ask him what he dislikes about Platform and which parts he considers to be leakage. I don't think Sam found the slides to be that useful.
